Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claim 22 is rejected under 35 U.S.C. 102(e) as being anticipated by Luhm (US 2001/0052178 A1).

Luhm teaches a structural assembly comprising first and second structural members joined by a rivet (figure 9) having a grain size finer than 6 (paragraphs 86 and 87).

3. Claims 22-29 are rejected under 35 U.S.C. 102(e) as being anticipated by McTernan et al. (USPN 6742697 B2).

McTernan teaches a structural assembly comprising first and second structural members joined by a rivet (plug) having a grain size of 3 to 5 microns (col 8 lines 37-50). The structural members and rivet may be the same or dissimilar and include materials such as aluminum and aluminum alloys (col 8 lines 51-67). An elongate weld is formed by friction stir welding (col 8 line 51 – col 9 line 7 and col 9 line 48 – col 10 line 18). See also McTernan claims 1 and 5-9.

The applied reference has a common assignee with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not the invention "by another," or by an appropriate showing under 37 CFR 1.131.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Stol et al. (US 2002/0125297, fsw, rivet, Al, Ti), Stevenson et al.(US 2004/0118900) and Mahoney et al. (USPN 5975406).
5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lynne Edmondson whose telephone number is (571) 272-1172. The examiner can normally be reached on Monday through Thursday from 6:30 a.m. to 5 p.m.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tom Dunn can be reached on (571) 272-1171. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
